Dear Sir/Madam

This is my seventh time of writing you this email. My wife and I won a Jackpot Lottery of \$11.2 million in July and have voluntarily decided to donate the sum of \$1,000,000.00 USD to you as part of our own charity project to improve the lot of 5 lucky individuals all over the world.

If you have received this email then you are one of the lucky recipients and all you have to do is get back with us so that we can send your details to the payout bank.

You can verify this by visiting the web pages below.
